ABOUT HIGHWAY LAWS Understands a Trick or Two When It Comes

Wheelmen Consider the Subject of Good Roads.

REMARKS OF A. R. CHOATE.

the Law Permitting Farmers to Work Out Their Poli Tax I: Responsible For Bad Roads All Over the Country.

Albany, Feb. 11 .- At the afternoon session of the good roads meeting of the wheelmen, Hon A. R. Choate of Minneapolis was the principal speaker.

"Our highway laws contain evidence of all stages of civilization from the Eleventh century down to the present

'It is, of course, impossible for me to particularize in regard to all hodge bad patchwork of highway legislation throughout the United States. I take pleasure, however, in paying my respects to one law in particular because it is probably responsible for more bad roads, and is more generally in force in the United States than any other road law. I refer to the law permitting the farmers to work out their road tax instead of paying it in money."

The speaker then went on to explain at length the origin of the toll tax.

"This ill-fated old law has been patched in my own state, and in some other states so as to permit, but not require the farmers not to pay their road tax in money. In some states, I understand, the law has, through the influence of the League of American Wheelmen been abondoned, very much to the profit of the states so doing. There is no more vicious law in existence. I would urge that the League of American Wheelmen enter politics. Political influence is a great thing if we went to secure legislation for good

James Owen of Newark, N. J., took the rostrum. He recited a history of good roads movement in New Jersey, So rapid has been the growth of good , roads in the state and so heartily had the people taken to the improvement that there was not a legislator in the state of New Jersey who would dare to introduce a bill to repeal the law relative to good reads.

EXECUTIVE COMMITTEE. Election of Officers of the Epworth League

For Four Years. sulted as follows: Rev. Edward A. Shell of Chicago, general secretary, Professor L. Garland Penn of Lynch burg, Va., assistant secretary for the colored work; Rev. William I. Haven of Boston, first vice president; Rev. E. M. Mills of Elmira, N. Y., second vice president; R. R. Deherty of New York, third vice president; J. A. Patton of Chattanooga, fourth vice president, Charles E. Piper treasurer.

These officers, with Bishop W. X. Ninde of Detroit, president, and Rev. J. F. Berry of Chicago, editor of the Epworth Herald, make up the cabinet, or executive committee of the league.

Plans are being made for the international conference of the league to be held at Toronto, July 15 of this year. An attendance of 25,000 is anticipated. Lord Aberdeen, governor general of Canada, is to deliver the address of welcome.

The Dauntless Is Restless. Washington, Feb. 11.-Attorney Gen eral Harmon received a telegram from the United States ettorney at Jacksonville, Fla, stating that an application had been made to Judge Locke for an injunction against the collector of the port and the captain of the revenue cutter Bootwell restraining them from any interference with the movements of the survected filibustering tug Dauntlas. The attorney general asked that the time be extended for

Ready For the Blockade. Charleston, Feb. 11.-The North Atlantic squadron is lying off the south of the harbor and beyond evolutions for position, nothing in the way of the blockade running has yet been done. The admiral has signaled the positions he wished the various ships to take and they have moved according to his directions.

A Woman Faints. Madres, Feb. 10 .- Denial is made Noble, the sculptor, who was charged

interest a great many people be-side base-ball cranks to know that when a ball "curves" through the air first one way and then an-

other after leaving

the pitcher's hand, it does what scientific men once declared was impossible. They made figurea and diagrams and proved that "curve" pitching couldn't be done; then the pitchers did it; and the scientists concluded that something was wrong with the diagrams. In face of facts some scientific "cristians" become the diagrams. In face of facts some scientific "certainties" become mighty uncertain. Consumption, scientists once declared, was incurable; now they see it cured every day by Dr. Pierce's Goiden Medical Discovery. It purifies and vitalizes the blood; drives out the poisonous elements; supplies the life-giving red corpuscles; stops the accumulation of morbid deposits; heals and builds up the lung tissues; puts good solid muscular flesh on to the frame; and imparts fresh netve-force and vital energy. It is the most perfect cure ever discovered for the most perfect cure ever discovered for

It is the invention of an educated and exrestricted invention of an educated and ex-perienced physician. Dr. Pierce has been for nearly thirty years chief consulting phy-sician of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and his medicines are recognized standard remedies.

throat and bronchial affections, wasted, run

Little Men and Women

We call them little men and little women, but they are neither. They have ideas and ways all their own. Fortunately they soon become fond of cod-liver oil, when it is given to them in the form of SCOTT'S EMULSION. This is the most valuable remedy in existence for all the wasting diseases of early life. The poorly nourished, scrofulous child; the thin, weak, fretting child; the young child who does not grow; all take Scott's Emulsion without force or bribe. It seems as if they knew that this meant nourishment and growth for bones, muscles

Book telling more about it, free. It won't pay to try a substitute for Scott's Emulsion with the children. They will relish the real thing. For sale at 50c. and \$1.00, by all druggists.
